Subject: Estimates for Cemetery
Date: Monday, August 23, 2021 10:54:38 AM
Attachments: TAYLOR MEMORIAL CEMETERY pricelist.docx

Attached is an estimate for the work at the Taylor Memorial Cemetery. If possible, could the power washing begin soon? The mold and mildew on the sidewalks is such an eyesore. Then perhaps the other work could begin after 10/1.
Also, I spoke with someone who is familiar with cemetery rules, etc. and they suggested not having a "perpetual care" cemetery, but a "continuing care" cemetery. With a perpetual care cemetery we would need to establish a base fund to cover all maintenance for the year and abide by all the Florida statutes under the Cemetery section. A continuing care cemetery would just need someone identified to continue to maintain the cemetery on a regular basis.
In addition, if possible, perhaps adding a reasonable amount to the current mowing contract may be able to cover all maintenance in the cemetery - not just mowing. Just a thought.
I was thinking about the work JJ does with the cemetery - keeping a file of sorts of who is buried where and helping the funeral homes with the grave site - maybe someone in town hall needs to learn how to do that in case JJ decides to move on at some point.
