

Parks and Recreation Advisory Committee
Minutes of December 13, 2018

Attendees:

Kelly Cook, Pat Miller, Sal Gallelli, Peter Tuite, Ed Conroy, John Ernest, Dairian Burke

Park Surveys:

All parks are looking in good condition.

Public Services Report:

John provided a report of all public services items that have been taken care of in all areas of Howey.

Boat Ramp Light:

John indicated that he has two light poles that may be available to be installed near boat ramp. He will work with Ed C. to determine if this can take place. If not, we will order a solar light to be installed at boat ramp.

Florida Friendly Yard Award:

Peter will provide a draft for all to review on this project. This award is to encourage environmental improvements in the yards of residents. The draft will be discussed at the January meeting.

Bicycle Plan:

Ed Conroy is working with Lake County on a bicycle trail master plan that will go through Howey. A \$30K grant is being worked on.

Florida Fertilizer Ordinance:

Peter provided a plan for the types of plants to be installed; how to best prepare the area for the plantings and how to establish a continuing change to how the edge of the lake is taken care of. The 50' X 15' area is planned to be located just north of the boat dock.

Old Business:

Dairian noted that approximately 60 residents have complained about the new street lights being too bright. Options are being reviewed and a study tentatively to be completed in 90 days is being done by Clay Ormsbee and Bill Herrington.

The meeting was adjourned at 8:35 p.m.

Respectively submitted,

Patricia L. Miller

Approved: Kelly Cook
