

- We are asking for a vinyl coated (black) chain link fence to help preserve the views of Little Lake Harris from our back and side yard, as well as to not block the Lakefront views of our neighbors at rear of property.
- The Fence is connected to the existing vinyl coated chain link fence which is at least 24 years old.
- A viburnum hedge had been planted on the fence line to grow to provide a natural buffer. This hedge will match the hedge that has grown next door to make a more natural look.
- We are also asking as part of this permit for a Tan Vinyl Privacy fence to be placed between 701 and 703 N Lakeshore on the side property line to provide side yard privacy between the two residences.

Thank you for your consideration.

701 N. Lakeshore Blvd. FENCE PERMIT -ZONING

Side yard vinyl chain link with viburnum hedge planted along fence
