Subject: Howey Cemetery

Good morning.

Notes about our conversation this morning:

1. Concrete bench (donated by Howey Garden Club) at south side of cemetery is very overgrown with trees/bushes that would not be comfortable to sit on. Can this be cleaned/cleared based on their monthly contract to take care of landscaping issues at the cemetery?
2. Fresh or silk flowers placed by headstones. Should be picked up/discarded by family member?
3. Small metal stands are put in ground by new grave site identifying who is buried there until actual name plate installed. They identify the persons name and funeral home that provided. JJ believes they belong to the family and need to go to the family. I believe they are to be returned to the funeral home, or the funeral home should pick up. I don't know the correct way to handle this.
4. Garbage cans at cemetery for discarded flowers, etc.?

I will advise John Brock to put Cemetery on agenda for next meeting.
Thank you for what you do for our town.

Marie V Gallelli
